Financial Policy:

Payment is due at time of service.

Upon request, a bill can be provided to submit to your insurance company in the event that the services provided at this clinic will be covered by reimbursement. No refunds will be provided after the time of service.

Cancellation Policy:

At least 24 hour notice is required to cancel your appointment. If it is not cancelled at least 24 hours prior to your scheduled appointment, you may be charged up to 100% of the missed appointment.

All of the above information is true to the best of my knowledge and I agree to the financial and cancellation policies of this office as stated above.

Patient Signature (or Parent or Legal Guardian if patient is under 18)

Informed Consent: PLEASE READ CAREFULLY BEFORE INITIALING OR SIGNING.

Consent to Treatment

The therapeutic procedures of naturopathic medicine are considered safe and effective methods of care. Any procedure intended to help may also have complications. While the chances of experiencing complications are small, it is the practice of this clinic to inform our patients about them. Please read and sign below that you understand the following procedures:

<u>Nutritional supplements, herbs, and homeopathy</u> may be used to aid in healing. Be sure to inform your practitioner about all medications you are taking to minimize drug/supplement interactions. If you believe you are experiencing any side effects from your supplements/herbs/homeopathy be sure to alert your health care provider.

_ Initial and circle if you have any severe food allergies to shellfish, gluten, soy, dairy, or other (fill in)

<u>Naturopathic Manipulation</u> is a form of physical medicine. The practitioner uses gentle force to manipulate spinal segments or bones in the extremities to re-establish normal movement and function. Please alert your provider if you have previously had negative effects with naturopathic manipulation or chiropractic adjustments.

Applied Kinesiology is a safe and non-invasive natural method of analyzing the body's physical and nutritional needs. It is not a method of "diagnosing" or "treating" any particular disease.

I understand, and am informed that in the practice of medicine and naturopathy, there are some risks to treatment. I do not expect the doctor to be able to anticipate and explain all risks and complications, and I wish to rely on the doctor to exercise judgment during the course of the procedure which the doctor feels at the time, based upon the facts then known, is in my best interest.

I have read and understand the above statements and have had the opportunity to ask questions. I understand that the health improvement program recommended to me is not for the "cure" of any particular disease. No promise or guarantee has been made regarding the results of Applied Kinesiology, or any natural health, nutritional or dietary programs. Rather, the above will be used for bringing about a more optimum state of health. By signing this form you consent to the treatments provided by the doctor(s) practicing at Christina Sahni Radie, ND, LLC.
